

Brian Lorente began his career at the National Home in 2000 as a summer intern. While interning he was offered a position that allowed him to stay in school while working and has been a part of the National Home family ever since. Brian graduated with a Bachelor of Science in Psychology and a Sociology minor. Brian was responsible for the Life Skills program on campus for over 15 years.

After spending several months as the interim Program Co-Director, Brian was appointed to the newly created position Veteran and Family Resource Manager in March 2022. Brian's responsibilities encompass the development of resources that support our veterans and their families.

Brian is an accredited Veteran Service Officer through the VFW's National Veteran Services program and the Michigan Veterans Affairs Agency. Part of his responsibility will be to research benefits for veteran residents, as well as assist with VA claims, and educational benefits.

Since taking on this new role, Brian has worked diligently to build and enhance a list of resources while increasing relationships with services, and corporate entities that are interested in supporting the National Home. Brian played a key role in the establishment and grand opening of the Veteran and Family Resource Center on campus in October of 2022 where he works with numerous agencies to support our residents.

Brian spends most of his free time coaching basketball and spending time with his family, traveling and enjoying sports.
